This Condominium Map is intended to show only the layout, location, boundaries, dimensions and numbers of the units and elevations of the buildings and is not intended and shall not be deemed to contain or make any other representation or warranty.

Method of computing floor area

The floor area of the apartment or unit shall be computed and reported in the declaration and commission's public report as net living area. The net living area of the enclosed portion of the apartment shall be measured from the interior surface of the apartment perimeter walls. Areas of lanai or patio, which are considered as part of the apartment, shall be computed and reported separate from the enclosed apartment area.
